[University of Wollongong – Spotlight on Social Sciences](#)

Registration Closes 4 October

Event on 1 November

Dive into the fascinating world of social sciences and discover how society shapes our lives and futures. Join us for an exciting event filled with dynamic sessions about criminology, human geography, sociology, human services, and public health.

Don't miss this opportunity to engage with experts, participate in hands-on activities, and explore real-world issues that impact our communities. Students will rotate through each session in small groups (depending on numbers)

Students currently studying Legal Studies, Society and Culture, Community and Family Studies, and/or Geography are likely to benefit from this event, but any student in Years 10 – 12 who has shown an interest in the Social Sciences is welcome to attend.

[Doctor of Medicine Applicants Western Sydney University](#)

Midnight AEST 27 September – Applications close via UAC

Midnight AEST 27 September – Community Member Confirmation

Forms close (*REAS candidates lodged with UAC application)

End October – Applicants invited to interviews/ assessments

Late November – MMI interviews

The purpose of our admissions process is to identify students who will learn and thrive in the environments in which we teach and from which our medical students build their careers.

Medicine is a physically and mentally challenging profession where practitioners are often required to put the interest of their patients over their own.

The Joint Program in Medicine is a five-year undergraduate degree which aims to help candidates develop necessary skills for practice of medicine.

[Western Sydney University Music Auditions](#)

To audition for the degree, book a time through the link below. You will be asked to perform two short, contrasting pieces or songs (or excerpts of two pieces) and/or perform one piece and present one or more compositions as scores and/or recordings. Works performed can be covers or originals, performed solo or with accompanying musicians or with backing tracks on your phone.

Auditions will be held at the Kingswood campus or on Zoom, on the following dates:

- November 26
- November 28

[NIE Webinar – Students applying to JCU for Medicine or Dentistry](#)

24 August, 15 September or 20 September

Did you know that James Cook University does not require a UCAT score as part of the application process for medicine or dentistry?

However, a written application and letters of support are part of the competitive selection process for Dentistry. Also, while JCU medicine no longer has a written application and letters of support component, it is vital to be well prepared for your medical interview across all of the assessed areas including understanding and knowledge of Indigenous, Rural & Tropical Health Issues in Medicine.

We understand that the application and preparation process can be overwhelming, and that's why we're here to help!

NIE is conducting an informative workshop/webinar during which you will gain valuable insights, practical tips, and personalised advice to create a standout application for the Dental Degree program at James Cook University, as well as build knowledge for the medical interviews surrounding the topics of Rural and Indigenous Health Issues as well as understanding about Tropical Medicine.

[Sydney Actors School Applications now open](#)

Applications to Sydney Actors School are now open for the January 2025 intake. Australia's premiere acting school has a clear vision; the school is about providing the most personalised, hands-on practical training in acting in the world. Sydney Actors School employs industry professionals with real credits. Many institutions will offer "industry professionals" as lecturers, however they have not worked at significant levels in the international film and TV industry. Our lecturers have had major impact in their chosen fields e.g. Philip Quast, Kevin Jackson and Julia Cotton. This is why many of lecturers' are also the chairs and presidents of the guilds for their industry bodies. We are very selective across all disciplines. Entry to our accredited programs is by a strict audition and interview process. Our goal is not to fill seats with students and promise the world – we are serious about assisting students to launch their acting careers. This is why we have very limited enrolments and a thorough audition and interview process to gain enrolment into our acting courses

[Sydney Film School - 2025 Applications Now Open](#)

Applications to Sydney Film School are now open for the January 2025 intake. Hollywood based Variety Magazine has awarded Sydney Film School its top film schools for 2020 accolade. The only Australian film school to be awarded. Sydney Film School was founded to teach the essential filmmaking 'tools' necessary for a successful career in the global film industry.

[Study a Bachelor of Screen Production with Sydney Film School and Excelsia College](#)

To develop excellence in the art, craft and technology of production, we believe students crucially need critical thinking skills to analyse and evaluate current industry practices and strategically explore new modes of storytelling and dissemination whether it's in a cinema or online. Sydney Film School, in partnership with Excelsia College, offers this unique model of training that is value-driven, industry-informed, professionally sustainable and socially directed. It will appeal to creative students who believe in and want to be nurtured and inspired to make a positive difference in the world.

[Avondale University College – Adjustment Factors](#)

Adjustment Factors – Up to 10 – Avondale University College Avondale understands that some factors may have hindered your ATAR result. In certain circumstances, we use adjustment factors, which are additional points (formally referred to as bonus points) added to your ATAR to derive your selection rank for entry into your chosen course. The circumstances are: Location/school ; Disadvantage; Elite level sporting commitments; Indigenous applicants You will receive five adjustment points, up to 10 points, where any of these factors apply to you.

7 Tips to Take You a Step Higher in Your Nursing Career

Now that you have fulfilled the requirements to become a registered nurse, part of your duties will be caring for patients and making the world a better place. The beauty of nursing is that it offers a wide range of career descriptions. You do not have to be a resident-based nurse after your studies. You can still explore other nursing-related career options, such as tutoring or consultancy. Whether you are a budding nurse looking to become recognized for diligent service or are a nursing veteran ready to tackle new changes, there is still a chance to progress in your career. Here are a few tips to help you do that.

How to make the most of a gap year abroad

Taking a gap year is an opportunity for you to gain independence, have adventures, and learn practical skills. And there are many things to do in a gap year that'll also look great on your resume.

Planning your gap year carefully will allow you to get the most out of your time. Creating a structured gap year plan means you'll have the time to tackle the big questions in life while you gain practical experience, and get to try out different career options in a real-world context.

You might even discover a new passion, or confirm that the path you were considering is the right one for you.

Make the most of your gap year by choosing a volunteer or internship program that fits your interests and goals. And rest assured by choosing from the best gap year programs that offer a safe and meaningful travel abroad experience.

Here are six awesome things to do in a gap year to help you make the most of your gap year experience.

Vision Australia Further Education Bursary

Closes 15 September

Each year, Vision Australia awards Further Education Bursaries to a select number of students who are blind or have low vision.

The bursaries provide adaptive technology to help the students fully participate and succeed in their chosen studies.

Assistive technology can eliminate barriers to education and enhance access to information. It enables students to read course material, conduct research and improve their student life.

Since the inception of the bursary scheme in 1996, more than 440 students have been supported in their further education journey.

Work Experience Week is aimed year 10 and year 11 students who are interested in working in a feature animation studio, as we provide the chance to for students to learn about the roles and responsibilities related to a career in the Animation & Visual Effects workplace. Students will be involved in a combination of lectures, experimental artistic, technical learning and presentation skills, all by some of the best artists/technicians in the industry.

We have 10 places available and we will be looking for students who we feel will be able to best benefit from this opportunity. To determine this we will look for applications that:

- demonstrate specific skills in relevant technical and/or creative areas
- show specific interest in disciplines in our industry, through the cover letter and subject choices (i.e. computer studies, visual art, etc.)

'Work Experience Week' is completely free and we'll provide you with lunch and snacks each day!

Mega Maths Day 2024

26 November

Mathematics is the hidden hero in every STEM discipline whether it be geosciences, biology or psychology. Wherever your students see themselves heading in their future studies and careers, we want to show them how important and useful it is to have a foundation in mathematics.

Your Year 9 & 10 classes will join us for a day of STEM fun, including meeting a real mathematician, and your school's choice of three hands-on workshops themed in different disciplines, but all focused on the importance of mathematics. Year 10 in particular is a key time when your students are choosing their future direction, so give them the opportunity to find out just how important a solid background in maths is for a huge array of disciplines and careers.

Mega Maths Day will show your students how magnificent, marvellous and monumental maths is!

Grand Challenge 2024: Towards Net Zero

6 November

In The Grand Challenge, students in Years 9 & 10 will spend a fast and fun day learning about a real-life global problem before ideating, developing and pitching their own solutions to their peers and STEM experts for a chance to win prizes.

This event is powered by Future Anything and the Faculty of Science, University of Sydney,

THE GRAND CHALLENGE 2024: TOWARDS NET ZERO

Too much CO₂ in the atmosphere is warming the planet, which is contributing to climate change. To preserve the planet for ourselves and our future generations, we need to completely balance out the CO₂ that we produce – this is known as Net-Zero. The Net-Zero transition will be one of the largest technological revolutions ever carried out by humankind. A transition to Net-Zero means developing technologies that will remove CO₂ produced by us, as well as the generations before us, since the Industrial Revolution. We can also develop technologies to avoid emitting any future CO₂, such as switching to renewable energy sources.
